

VINCENT DePAUL aka Vinny Vegan, Owner/Founder of Gangster Vegan Organics

Vincent was attracted to the so-called “Gangster” lifestyle at a very early age. Sex, Money, Drugs and Violence. And in his early 20’s he created Selebs, a T-Shirt Brand that made a huge impact through out the hip-hop industry and he went on to sell millions of t-shirts worldwide. At the age of 30 he lost everything, and became morally, financially and spiritually bankrupt. It was through this tough time, that he was introduced to his first fresh pressed organic juice ever, and it changed his life forever. With this new awakening, he decided he wanted to make a difference in the world. So he created Gangster Vegan. At first it was just a t-shirt, and for every shirt sold, he fed an inner city child a free hot organic vegan meal, which still goes on today. In 2014 he opened up his first restaurant in Norristown, PA called Gangster Vegan Organics and in 2016 opened up his second location in Phoenixville, PA. He is dedicated to serving love and improving the quality of life worldwide.
